

Roadmap to Research and Innovation for Nature-based Solutions activities and projects

Empower R&I projects, policymakers, businesses, researchers and citizens in mobilising the full potential of NbS

What is the roadmap?

This Roadmap to 2030 identifies core action areas for European Research and Innovation (R&I) on Nature-based Solutions (NbS) that are essential to achieve EU goals for NbS development & deployment.

4 action areas

1

Advancing NbS knowledge and data

Keyword: *Roadmap NbS Data*

2

Closing the NbS research-implementation gap

Keyword: *Roadmap NbS Implementation*

3

Mainstreaming NbS in policy

Keyword: *Roadmap NbS Policy*

4

Exchange, capacity building and awareness

Keyword: *Roadmap NbS Engagement*

How your project can contribute

On www.networknature.eu:

- Categorise your activities into one or more of the 4 action areas
- Tag resources with designated keywords when you upload them to the NIN+ website

Submit a more detailed contribution:

Ask the NN+ team for a reporting template to share more detailed information on your activities

Why does it matter?

For the European Commission & funders:

- Identifying knowledge gaps and emerging priorities, and informing future policy priorities and funding opportunities
- Monitoring progress in NbS R&I activities

For your project and the Nbs community:

- Tracking your contribution to the EU-wide NbS R&I effort
- Demonstrating impact across policy, research, and practice
- Increasing visibility and building connections within the NbS community
- Identifying emerging needs and opportunities for collaboration
- Contributing to monitoring progress and to future updates of the Roadmap and the EU NbS vision

Discover the roadmap

& contact the NN+ team to maximise your impact!
